Expert Analysis

Bob Moriarty, 321gold (12/5/11) "Majescor Resources Inc. now controls a major gold/copper project first drilled in 2003 with some spectacular results. One hole showed an incredible 77 g/t Au over 10m. . historic drilling results show a potential for a few hundred million tons of 1% copper. Drill results to date are spectacular."

The Gold Report Interview with Chen Lin (12/2/11) "I was very excited about my visit to the Majescor Resources Inc. gold property. The property has a huge potential and Newmont Mining Corp. is also in the area. Newmont has been very interested in Majescor's drilling program and even invited Majescor's company executives to its office when I was there. That tells you how much focus it has on this drilling program by Majescor. It will have drilling results coming out in December. First, it was targeting copper and copper-gold and then it will drill out the area with some very high gold intercepts. In a previous release, Majescor showed 10 meters of something like 70 g/t. It will drill that next year. Basically, it's a gold and copper or copper and gold project, depending on where you focus on it. . Its market cap is only \$15M and it could have a world-class deposit. Plus all the majors are looking at the drilling results. . Majescor has been working on this project for two or three years and finally the drilling starts. It's a pretty exciting time for shareholders." [More >](#)

Chen Lin, What Is Chen Buying? (11/16/11) "Majescor Resources Inc. is a tiny junior company with huge potential. It is on Newmont's watch list and it also has the attention of the Canadian government. . the company also has built good relationships with the locals, which will help to build the mine in the future. Majescor has only a tiny market cap of 15M, yet it is the most advanced exploration company in
